MANAGER'S REPORT

1970 will be remembered best as the year in which Newport started construction on its first sewage disposal system. The start of construction marked the culmination of over 10 years of planning jointly with State and Federal Governments. It is a landmark in the history of Newport.

Work in all other departments was normal from an operational point of view but additional refinements and improvements continued to be made and will be touched upon more in detail in separate departmental reports.

This was also the year for the beginning of the New Hampshire Business Profits Tax which replaces older taxes which had been collected for years on such items as stock-in-trade, machinery and many other minor taxes. Newport was fortunate to receive approval of the Selectmen's appeal to the New Hampshire State Tax Commission and thereby received approximately \$20,000 more from the Business Profits Tax than was normally provided for under the law. Had it not been for this favorable action our budget would have been greatly exceeded.

1970 was a very bad year from a budgetary standpoint. The gradually increasing cost of everything finally became evident in this year in a very noticeable way. Insurance costs across the board increased tremendously as did Welfare expenditures. Actions have been taken to provide adequate funds in the 1971 budget to take care of these increased costs, most of which are statutory requirements and beyond our control.

I would like to thank the Selectmen and the voters of Newport for their continued support. It is only by such joint cooperation that we can look forward to continued progress.

Respectfully submitted,

ALVIN A. HEIDNER

Town Manager

TOWN WARRANT

STATE OF NEW HAMPSHIRE

To the Inhabitants of the Town of Newport, qualified to vote on Town Affairs:

You are hereby notified and warned to meet at the Town Hall in said Town of Newport on the second Tuesday of March next at nine o'clock in the forenoon to act upon the following subjects:

ARTICLE 1. To elect a Selectman for a term of three years and all other officers, Auditors, Agents, members of the Budget Committee and Committees necessary for the Town Business.

ARTICLE 2. To elect a member of the Trust Fund Commission.

ARTICLE 3. To see if the Town will vote to authorize the Selectmen to employ Auditors to inspect and audit the books of the Town and its departments for the ensuing year and to pass any vote in relation thereto.

ARTICLE 4. To hear the reports of the Selectmen, Town Treasurer, Auditors and Committees heretofore chosen and pass any vote in relation thereto.

ARTICLE 5. To see if the Town will vote to authorize the Selectmen and Town Treasurer to borrow money on the notes of the Town in anticipation of taxes and pass any vote in relation thereto.

ARTICLE 6. To see what discount the Town will vote to allow on 1971 taxes if paid within ten days of the posting of the Tax Invoice.

ARTICLE 7. To see if the Town will vote to authorize the Selectmen to administer or dispose of any real estate acquired by the Town through Tax Collector's deeds or in any other manner.

ARTICLE 8. To see if the Town will vote to approve and adopt the recommendations of the Budget Committee, raise and appropriate the various sums contained in the report and listed in the Budget which includes the following special appropriation:

(A) To see if the Town will vote to authorize the construction of a new Town Shed, on property owned by the Town, and for such purpose to appropriate a sum not exceeding \$70,000, such sum to be raised through the issuance of serial notes under and in accordance with the provisions of Chapter 33 of the Revised Laws as amended, and to author-

ize the Selectmen to determine the time and place of payment and rate of interest on said notes, and to take such action as may be necessary to the issuance thereof.

(B) To see if the Town will vote to raise and appropriate the sum of \$4,500.00 for the purchase of an aerial ladder truck for the Newport Fire Department.

ARTICLE 9. To see if the Town will authorize the Selectmen to establish a capital reserve fund, under the provision of Revised Statutes Annotated 35:1 and 35:3, for the specific purpose of purchases of mobile fire apparatus, and for this purpose to transfer \$5,000 in appropriated funds from the 1971 Fire Department budget and any amounts in future Fire Department budgets, which may be appropriated for this purpose.

ARTICLE 10. To see if the Town will vote to restrict the use of heavy equipment of any kind on the Newport Common, not including town vehicles needed for maintenance purposes.

ARTICLE 11. To see if the Town will vote to authorize the Selectmen to sell the Town Swimming Pool in any way which may be in the best interest of the Town.

ARTICLE 12. To see if the Town will vote to authorize the Selectmen to sell a piece of Town-owned property, size 40' x 450', located between properties owned by Andrew Hastings and Albert Gauthier, bordering on Cheney Street, for the sum of \$600.00 to Mr. Albert J. Gauthier.

ARTICLE 13. To see if the Town will vote to rescind its action whereby it voted to elect its town officers under the Australian ballot system and vote instead to elect said town officers by the non-partisan ballot system.

ARTICLE 14. To see if the Town will vote to rescind its March 9, 1965 vote whereby it adopted a Zoning Ordinance with regulations and districts; and that said matter be placed on the ballot electing town officers; and that the question which shall be as follows (with squares with the words "Yes" and "No" printed after the question): — "Are you in favor of rescinding the March 9, 1965 Town Meeting vote whereby a Zoning Ordinance was adopted by the Town?"

ARTICLE 15. To see if the Town will vote to admit only registered voters to the meeting place while the Town Meeting is in progress.

ARTICLE 16. To transact any other business which may legally come before said meeting. (Polls shall be open for the reception of ballots at 9:30 A.M. and shall not be closed earlier than 7:00 P.M.)

Given under our hands and seal at Newport, New Hampshire, this 19th day of February, 1971.

JOHN J. DeMAYO

ARNOLD O. CAMPBELL

ANTHONY MAIOLA

POLICE DEPARTMENT

In recent years, this country has been jolted by the realization that it has a seriously high incidence of crime. Crime is rising rapidly — eight times more rapidly than population growth.

Here in Newport, we have made every effort to equip and upgrade the quality of Police Personnel, their performance, training and education to combat this situation.

During the past year, this department was most fortunate in receiving grants from the Governor's Commission on Crime and Delinquency, and has obtained a completely new and modern radio system that conforms with the best in the State. We have also received a Mobile Crime Lab van which will enhance our ability in the investigation of crime. Also, we have sent officers to special training schools under a Federal Aid Program, and have otherwise continued to improve ourselves in order to cope with the rapid changes in law enforcement practices as interpreted by the United States Supreme Court.

Of particular interest is our own rise, even though we are still under the national average:

	1970	1969
Homicides	1	0
Burglary	43	19
Grand Larceny	15	3
Missing Persons	90	28
Vandalism	75	18
Narcotics	12	3
Calls for Service	10,457	9,431
Motor Vehicle Cases:	1970	1969
Violations	339	266
Accidents	269	146

Newport Police investigated Stolen Property in the amount of \$14,682.89, during 1970, and recovered a total of \$15,747.97 worth of stolen property in Newport, along with other communities.

We wish to thank the Attorney General's Office, New Hampshire State Police, Sullivan County Attorney, Sullivan County Sheriff's Office, and surrounding local Police Departments for their splendid cooperation.

On behalf of the Newport Police Department, I would like to express our thanks to the citizens of Newport for their outstanding cooperation and support during 1970. Your confidence in this department shows your awareness of what the Police are confronted with in these times.

Respectfully submitted,
ALEXANDER P. LEWKO

Chief of Police

FIRE DEPARTMENT

The fire department responded to 105 calls in 1970, which consisted of seven bell alarms, 95 local telephone calls, two out of town calls and one call for help Box 3. There were no false alarms this year compared to seven last year. This is due to the cooperation of all our citizens and the efficiency of our police department.

The training program, under Captain Gokas is going forward at a good pace. The department, with the aid of The New England Telephone and Telegraph Company, built a 40-foot training tower which was completed in time for our September 20th all-day practice.

The floor in the engine room was repaired and a new smoke ejector was purchased.

The department accepted with regret, the resignation of Chief Karr, after 36 years of service and wish him good luck in his new job.

On behalf of the department, I wish to express my appreciation to the town officials and citizens of Newport for their cooperation in keeping our fire loss low.

Respectfully submitted,

E. JAMES WRIGHT, Chief

Newport Fire Department

FOREST FIRE WARDEN

There were only two forest fire calls in the Town of Newport in 1970. These two fires burned over approximately three acres. In our district, which includes Newport, there were 29 forest fires in 1970 compared to 25 in 1969. 1970 was a relatively quiet one for forest fires due in part to favorable weather conditions and the cooperation of citizens and visitors alike in preventive precautions.

Respectfully submitted,

E. JAMES WRIGHT, Warden

HIGHWAY DEPARTMENT

As mentioned in last year's report not many roads were sealed because of other emergency work required. It was therefore necessary, in 1970, to do more sealing than normal in order to keep abreast of this requirement. Over 16 miles of roads were sealed, about twice the normal amount, with the end result that the expenditures in this department considerably exceeded the budget.

Other operations continued in a normal manner throughout the year. One major personnel change was made in the department when Fred Johnson replaced Earl Godfrey as Superintendent. Mr. Godfrey has served in the highway department for over 25 years and we all wish him well in his retirement years.

We are requesting funds in the 1971 budget to replace our backhoe which was purchased in 1963 and has now reached the point where it is uneconomically repairable. This is one of our most important pieces of equipment and needs replacement now.

A special article has been inserted in the 1971 budget requesting funds to construct a new town shed building, on town owned property, adjacent to the new sewage disposal plant. This town shed will house highway, water, sewer, and cemetery departments. Present facilities are badly overcrowded, necessitating outside storage of many vehicles. This is particularly bad in cold weather as a great deal of time is lost on cold mornings in getting the various trucks, and other pieces of equipment, started.

Facilities now occupied by water and sewer departments, in rear of Town Hall can then be demolished to make way for badly needed off-street parking space. Present town shed facilities will be needed for the time being to house two ambulances, Police van, bomb disposal vehicle and some storage. When the future of the present playground area becomes known consideration can then be given to future use of those sheds.

CEMETERY DEPARTMENT

Cemetery operations were normal in 1969. Robert Hutchinson has assumed the duties of Superintendent, replacing Carl Tenney. This department does double duty in that, when not actually handling funerals during winter months, personnel are assigned to the highway department.

Burials during 1970 were as follows:

Pine Grove	46
North Newport	16
St. Patrick's	19
Maple Street	4
<hr/>	
Total of	85

WATER DEPARTMENT

Operations during 1970 were normal. The new system completed in 1968 continues to function well. The program of meter installations continues with approximately 500 meters installed to date. This program, if all goes well, will be completed in 1972. All commercial water users are being billed at meter rates as soon as meters are installed. Private customers will all switch from flat rates to meter rates when all meters have been installed.

Operations in 1970 were as follows:

Water services turned on	30
Water services turned off	32
Hydrants repaired	9
Frozen services thawed	6
House service leaks repaired	5
Water services replaced	13
New water services	7
Main water leaks repaired	7

Water department operating costs for 1970 were as follows:

Balance on hand 1/1/70	\$ 523.07
Receipts during 1970	103,837.96
Total	<u>\$104,361.03</u>
Expenditures 1970	102,758.70
Balance on hand 12/31/70	<u>\$ 1,602.33</u>

SEWER DEPARTMENT

1970 marked the beginning of construction on Newport's first sewage disposal system. This system will include the following:

- Disposal plant north of town
- Lagoons in Guild
- Pumping station at Dorr mill
- New mains for sewage collection
- Some new lateral sewers

Planning for this new system was started in 1960. Increased federal and state funds have been made available since that time and the system now being constructed will be financed essentially as follows:

Federal Government	50%
State Government	40%
Newport's share	10%

Present estimates are that the system should be completed and in operation before the end of 1971. The sewer department personnel spent a great deal of time during 1970 working with the various contractors in getting started on the construction projects.

Normal operations were as follows:

Sewer mains plugged and cleaned	35
Private sewers plugged and cleaned	27
Manholes rebuilt	4
New manholes	4
New private sewer lines	2

RECREATION DEPARTMENT

Throughout 1970, the Recreation Department has endeavored to present programs for the entire community.

Activities such as badminton, volleyball, and basketball for women and basketball and volleyball for men were offered on a regular weekly basis throughout the fall and winter months.

Youth programs for both boys and girls included basketball, soccer, flag football, judo, and baton twirling along with floor hockey, arts and crafts, swimming lessons, and the summer playground session to name a few.

In addition to the regular programming at the Community Center, many organizations and clubs utilize the Center for meetings and special events.

The annual playground Tag Day event included a trip to the Museum of Science and a Boston Red Sox game. Also the special Father and Son hockey game in Concord proved to be a big success.

During 1970, the Recreation Department included in its responsibility the maintenance of Newport's Park and Playground areas.

The year 1971 will find the department striving to initiate new programs directed to the entire family. One such program which will be conducted on Friday and Saturday evenings is roller skating.

The increased interest and participation in the activities at the Community Center can be directly attributed to a fine Recreation Advisory Council whose members include: Roland Taylor, President; Carolyn Terhune, Secretary; Joan Hague, Bob Bates, Ed Kennedy, Howard Dunbar, Kermit Daimont, Fred Jones, George Martin and the Rev. Robert Curry.

Respectfully submitted,

DAVID E. FLEMING, Director

NEWPORT AREA HOME HEALTH AGENCY

Annual report of services of the Newport Area Home Health Agency, 1970:

	<i>Number of Newport Patients</i>	<i>Number of Newport Visits</i>
January	63	104
February	51	83
March	70	118
April	64	116
May	41	94
June	53	108
July	49	99
August	49	95
September	56	85
October	50	73
November	44	67
December	50	99
Totals	640	1,141

For all eight towns:

	<i>Number of Patients</i>	<i>Number of Care & Treatment Visits</i>	<i>Number of Consultations</i>
January	74	148	21
February	76	116	34
March	103	176	19
April	89	145	40
May	63	137	31
June	73	152	25
July	71	136	45
August	65	138	9
September	80	127	47
October	69	110	66
November	58	86	73
December	61	116	62
Totals	882	1,587	472

Total number of visits 1,587 plus 472 equals 2,059

The agency has sponsored Immunization Clinics about once a month except during the summer months. Last year 464 children attended the clinic. We have sent and received referrals to and from the Medicare intermediary, Blue Cross/Blue Shield, and the various welfare departments, both state and local. We refer patients to such services as Crippled Children Clinics in Claremont, Surplus Food Service, the Clothing Service, the Community Action Program, and the Planned Parenthood Association in Lebanon. We also follow up on the state immunization records for each child advising those who are delinquent to see their doctor or come to the clinics. All the above are achieved to a large degree by way of consultations, which are not counted as charge visits.

Respectfully submitted,

MRS. CYNTHIA PASOUR

Director

NEWPORT HOSPITAL REPORT

The year 1970 will be remembered by many not only as the beginning of a new and exciting calendar decade but also as a renaissance in the history of our hospital. Despite the ever increasing expense-factor of salaries and supplies we were able to maintain for a two-year period a \$38.00 semi-private bed rate.

During 1970, we spent \$19,212.69 on equipment and internal changes in order to maintain our high standards of delivering the best of medical care to those in need. We were also able to reduce our notes payable from \$18,238.93 to \$4,479.33, a \$13,759.60 reduction.

Although much is said about the high cost of hospital care it is interesting to note that the average patient entering the Newport Hospital in 1971 will actually be billed less than the same patient with a similar medical problem in 1968. This is calculated as follows:

In 1968, the average length of stay was 7.8350 days. In 1970, this was reduced to 6.4482 days. I think it is reasonable to assume a further reduction to six days in 1971. Thus, based on the then existing rates, a patient paying \$38.00 a day in 1968 would receive a bill of \$304.00 for eight days, whereas in 1971, a patient paying \$48.00 a day for only six days would be billed \$288.00, a \$16.00 reduction.

Although the advances in medical technology have boosted the costs of medical service in our hospital from \$38.00 in 1968 to \$48.00 in 1971, they have correspondingly reduced the duration of its need.

1970 saw the addition of Dr. Michael Moreton, Obstetrics and Gynecology and Dr. Joseph Stevens, Urology, to our medical staff. In keeping with the recommendations of the American Medical Association and the American Hospital Association, we also welcomed Dr. John Maxfield as the first osteopath to accept a staff appointment in our state.

The Newport area, as most others, is in need of more general practitioners. During the past several years, we have tried in vain to add to our number of staff physicians to keep pace with Newporters' ever-increasing reliance on our hospital for medical services. It is unfortunate, but true, that only two percent of physicians graduating from American medical schools choose family practice as their area of specialty. Recognizing these facts, the Hospital Trustees suggested active recruitment of general practitioners in Great Britain. As a result, two English doctors will begin medical practice in Newport in 1971.

The advances made in 1970 are attributed to the foresight and progressiveness of the Board of Trustees, the dedication and hard work of the physicians and hospital staff and the concern and support of various groups and individuals. To all of these persons, the Newport Hospital expresses its most sincere thanks.

Respectfully submitted,
JOHN J. SHEPARD
Administrator

CIVIL DEFENSE

The past year was not overly active but many things were done for the benefit of the Town Departments.

The regular tests were conducted and the Program and Progress reports were sent in to Concord. The Radef kits were replaced with new updated meters and material which are under the care of Arthur Witkus, Radef Chief.

Two generators and other items were procured for the Police Department from surplus equipment. Furniture for blankets and bedding were procured for the Ambulance Service as well as 12 blankets.

The two-and-one-half ton truck has been assigned to the airport for plowing and is doing the job.

The Auxiliary Police conducted many training sessions with side arms in conjunction with the Police Department and participated in the state meet which was held in Newport. The many Civil Defense auxiliaries in the state are enthusiastic about the state meets being held in Newport because of the excellent range and supervision which is furnished.

One truck is assigned to the Water Department, one car to the Police Department and a jeep to the Fire Department, all procured at a very minimum cost to the Town in the past.

The Town Civil Defense Plan is in the process of being updated and brought in line with the State Plan. This will mean replacing some of the personnel who have left town for various reasons.

Radio Communications will be modernized so that there will be a better capability in case of emergency. The ambulances have already been completed and are part of the Civil Defense net. These radios replace the former town net which had been purchased with matching funds through the Civil Defense program. A new console has been installed in the EOC in the Town Hall.

Other projects are being set up for some of the departments which will take some time to implement but are being slowly completed.

LOUIS E. WILLETT, Director

NEWPORT AMBULANCE

The Newport Ambulance Service has been in operation since July 1, 1968 and has become a well-equipped and trained service. Almost every type of call has been answered by the attendants including traffic accidents, home accidents, illness, cardiac cases, broken limbs and transfers of all kinds.

Over 700 calls have been answered with 305 being done in 1970. This year the average is more than one a day so far. The attendants are on duty 24 hours a day two at a time and have answered calls at all hours.

Most of the crew is planning to attend an upcoming Emergency Medical Technician course which will require 71 hours of class work and 10 hours hospital emergency work. This will add considerably to the knowledge and ability of the personnel.

During the past year new Robinson type stretchers have been added which make the work of the attendants much easier as far as lifting is concerned. Portable oxygen tanks have been purchased for use in transporting from a home to the ambulance where the large tanks are installed. New blankets were a gift of Mr. Dorr and four jackets were donated by the Jaycees. Only 11 more are needed.

The greatest need of the service is a suitable garage. The old wooden building housing the Cadillac is falling apart, has no lights and is not heated. This promises the patient a real cool ride if not properly bundled up. In many cases the backup vehicle, which is housed in a warm garage, too small for the Caddy, is used but the calls are sometimes not completed before the second one is made. A new garage is a must for next winter.

The staff consists of Louis Willett, Director; Royal Wallace III, Emergency Medical Technician; Albert Gobin, Michael Patten, Walter Patten, Orren Barton, Dennis Pariseau, Beatrice Delorier, LPN; Tom Clough, Everett Grant, Arthur Files, Ted Blaisdell, Paul Duling, William Massey and Eleese Legacy, RN. Very much missed are the ones who have left town, the Rev. Robert Lawthers and Kendall Page.

New radios are now installed in the vehicles which give contact with almost all Police departments in the County plus a direct contact with New London and Mary Hitchcock hospitals. This has been found to be a very important addition. If Newport Hospital would join the net it would add a great deal to the service.

The Police Department is the dispatch point and has done a very efficient job. The cooperation of the Police Department deserves very much credit.

More attendants are needed and any interested person should contact the Director for information. Any number of hours could help a great deal in the right place.

The Crew is very proud of its record and are to be complimented for their exemplary service.

LOUIS E. WILLETT, Director

PLANNING BOARD REPORT

The Planning Board met 12 times during 1970. After a great deal of planning, Sub-Division Control Regulations for the Town of Newport were finally adopted by the board as authorized by vote of the town under Article 16 of the 1968 Town Warrant. These regulations are working well. A total of 19 requests for sub-division of properties was acted upon under the above regulations. All 19 requests were approved.

Present officers and members of the Planning Board are:

Soterios A. Saggiotes — Chairman
Patrick Zullo — Vice-Chairman
George Dorr — Secretary
Harold LaValley — Member
Evan Hill — Member
Richard Holland — Member
John DeMayo (Selectman) — Member

BOARD OF ADJUSTMENT

The Newport Zoning Board of Adjustment heard 12 applications for variances to the Zoning Ordinance during 1970 and two applications for special exceptions to the Ordinance.

In considering the appeals the Board found it necessary to deny two variance applications on the grounds that to grant them would violate the spirit and intent of the Zoning Ordinance; in one other appeal for a variance the proposed use requested did not meet the requirements of the Ordinance and was denied. A fourth denial was deemed necessary by the Board due to the fact that it would have extended a business activity into a residential zone. One appeal for a variance was withdrawn by the applicant and no action was taken by the Board on it. Of the remaining seven applications for variances, one was granted in part and the other six approved as requested.

Both special exception applications were granted by the Board with the understanding that Planning Board approval must also be obtained, as required by the Ordinance. This was done by both applicants.

On January 1, 1970, Board member Cleon Johnson's term expired and Mr. Russell Gardner was appointed for a five-year period to replace him. During the year the following people were appointed by Mr. Heidner as alternate Board members to hear specific cases: Mr. Roland Taylor, Mr. James Maley, Mr. Edward DeCourcy, Mr. Jonathan Howard, and Mr. Richard Dearborn.

Respectfully submitted,
JOHN W. BOYLE, Chairman

NEWPORT CONSERVATION COMMISSION

The Newport Conservation Commission held four meetings in 1970. On August 26th Mr. Sterling Brackett was elected Chairman, Mr. Chester L. Silver, Vice-Chairman, and Mrs. Raymond M. Roberts, Secretary.

Among the objectives of the Commission are: improvement of the Newport Common; removal of dead and ugly trees in the town (this program has already started); consideration of the possible use of old town roads and establishment of picnic sites, trails, et cetera; cleaning up the banks of the Sugar River, working in the area of pollution control, and zoning and conservation education.

Two members of the Commission attended a meeting of New Hampshire Conservation Commissions in Bedford, when it was voted to form a statewide organization of Conservation Commissions, in which the Newport Commission will share.

The Newport Conservation Commission welcomes suggestions and/or assistance from all interested citizens in the town in its objectives.

STERLING BRACKETT,
Chairman

AIRPORT

ACTIVITY:

Aircraft arriving	420
Aircraft departing	420
Passengers arriving	837
Passengers departing	765

Classification of flights are as follows:

Business	123
Commercial — (includes air taxi, charter)	33
Other — (includes pleasure and instruction)	264

During the year the hangar received a partial paint job to be completed in the spring. Eight and nine aircraft were stored year round, with many inquiring for space for winter storage having to be turned away.

Only one minor aircraft accident to report for the year, involving a 180 Cessna on landing with mechanical brake failure, causing aircraft to leave the runway and nosing over with no personal injuries.

Again this winter we hosted the Newport Winter Carnival Snowmobile and Auto Cross races.

In the spring the airport acquired a fine used set of gang mowers from the N. H Aeronautics Commission. They were repaired and painted and worked very well all summer.

The runway was kept open all winter due mostly to the excellent cooperation received from the Newport Highway Department, along with the assigning to the airport of a Civil Defense truck equipped with a snowplow, to be used whenever the Highway Department was unable to get there on a weekend.

During the summer the N. H Aeronautics Commission repainted the numbers and lines on the runway and taxiway.

Operational figures for 1970 were:

Balance & Interest 1/1/70	\$1,662.21
Receipts 1970	1,352.35
	<hr/>
Total	\$3,014.56
Expenditures 1970	267.94
	<hr/>
Balance 12/31/70	\$2,746.62

Respectfully submitted,

ALBERT A. GOBIN

Airport Manager

LIBRARY REPORT

Jean Claggett's final report as librarian of the Richards Library appears below. Mrs. Claggett will retire in August. During her 18 years of service to the town, she has developed the library's usefulness to the community to a degree never previously achieved. Month after month, year after year, she has given unstintingly of her time, her energy, her professional guidance, and of herself. Never in all those years has she been properly compensated, and the people of Newport can never pay her the debt she is owed. The trustees wish to acknowledge publicly their gratitude to her.

The town's appropriation for the library in 1970 was \$18,200; in that year, expenditures for salaries totalled \$15,237.32, and \$3,186.47 was spent for books and periodicals. There were, of course, other expenses, but these were met from other sources, largely private gift and endowment. Public library service in Newport is a partnership of public and private effort. The trustees will always make available to any interested citizen the library's complete financial statement.

No mention is made in this report of the Library Arts Center, since it is entirely supported by private endowment and contributions, but the programs and activities it makes possible add greatly to the library's value to the community.

And no mention can be made of the Library Arts Center without paying tribute to Marjorie Dorr, who was its chief inspiration and its chief supporter.

MARY KAINU, Chairman

and

MARIE BUGBEE, Trustees

LIBRARIAN'S REPORT

The year 1970 was one of increased use of the library, shown statistically by the highest total circulation in its history: 43,149 items borrowed, an average of 7.6 books (or magazines or records or prints) for every man, woman and child in town. Two new services were added. One, on trial for the school year 1970-71, is keeping open an extra hour, 8:00-9:00 p.m., five nights a week. The other is that the Library now both offers and honors the Statewide Library Card, good in any public library which is a member of the New Hampshire Statewide Library Development Program.

There are a few categories in our statistics which show a decrease: periodicals, non-fiction, reference questions and requests to the State Library. This is due, I believe, to a strengthened Junior-Senior High School Library. While we still do considerable supplementary work with this age group, the growing school collection for their specific needs frees the public library for other areas of service. Adult use (over High School age) statistics have shown steady growth.

In the juvenile area, three new projects were undertaken:

- 1) Twenty-four classrooms were visited in June to introduce a summer reading program without a prize as a reward. We may not have had as large a response (44 qualified for the movie and ice cream at the end of the summer) as some of the earlier years with a prize, but I liked the stress on honoring achievement in reading, rather than on competition, and felt more satisfied with the results.
- 2) Mrs. Charles Gouse has been a faithful volunteer for Thursday pre-school story hours for the 1970-71 school year. Six or seven children come regularly, and the stories have also been enjoyed by kindergarten and Head Start groups. We are most grateful for Mrs. Gouse's contribution of time and talent.
- 3) Book lists based on Sesame St. recommendations were distributed to kindergarten mothers at the beginning of the summer, and a special shelf arranged for the books listed. Judging from the heavy use, this was a most successful service.

We have borrowed and shown films from the North Country Film Cooperative (maintained jointly by Maine, New Hampshire, and Vermont) and have assembled collections of selected books relating to them for Head Start (8 programs) and the High School Honor Society (2

programs). Weekly exhibits of art work of the first six grades have been displayed.

Inventory of the stack room and adult reading room has been taken.

The copying machine in the Librarian's Office, acquired a few years ago, has had increasing use by non-library users, as well as valuable library use.

The Library has been host for a number of community groups and area library meetings. The Librarian has given book talks to local groups. Meetings of the New Hampshire Library Association, the New Hampshire Library Trustees Association, the New England Library Association and other professional meetings in the state were attended by trustees or by the Librarian.

We are grateful for the continuing support and contributions from the Friends of the Library and all other organizations and individuals who have contributed to the betterment of the Library through gifts of books, memorial gifts, money, and time.

I wish to express my gratitude to the staff, which is dedicated to giving the best service possible.

The Library suffered a great loss in 1970 in the death of Marjorie P. Dorr, one of our most dedicated, hardworking and creative members of the Board of Trustees.

I offer my final salute to the Trustees, whose unsung and unpaid efforts make the Library a matter of pride in the community.

Respectfully submitted,

JEAN K. CLAGGETT

Librarian

DIVISION OF MUNICIPAL ACCOUNTING
STATE TAX COMMISSION
Concord, New Hampshire

SUMMARY OF FINDINGS AND RECOMMENDATIONS

March 17, 1970

Board of Selectmen
Newport, New Hampshire

Gentlemen:

Submitted herewith is the report of an examination and audit of the accounts of the Town of Newport for the fiscal year ended December 31, 1969, which was made by this Division in accordance with the vote of the Town. Exhibits as hereafter listed are included as part of the report.

One of the enclosed audits must be given the Town Clerk as part of the permanent records.

SCOPE OF AUDIT

Included in the examination and audit were the accounts and records of the Board of Selectmen, Treasurer, Tax Collector, Town Clerk, Water and Sewer Departments, Trustees of Trust Funds, District Court and the Water Department Construction Account.

FINANCIAL STATEMENTS

Comparative Balance Sheets — December 31, 1968 - December 31, 1969:
(Exhibit A-1)

Comparative Balance Sheets as of December 31, 1968 and December 31, 1969, are presented in Exhibit A-1. As indicated therein, the Net Debt increased by \$118,607.27 in 1969.

Analysis of Change in Financial Condition: (Exhibit A-2)

An analysis of the change in financial condition during the year is made in Exhibit A-2, with the factors which caused the change indicated therein.

Comparative Statements of Appropriations and Expenditures — Estimated and Actual Revenues: (Exhibits A-3 and A-4)

Comparative statements of appropriations and expenditures, estimated and actual revenues for the fiscal year ended December 31, 1969, are presented in Exhibits A-3 and A-4. As indicated by the budget summary, (Exhibit A-4), a net overdraft of appropriations of \$39,099.27, less a revenue surplus of \$24,159.40, resulted in a net budget deficit of \$14,939.87.

Summary Statement of Receipts and Expenditures: (Exhibit B-1)

A summary statement of receipts and expenditures for the fiscal year ended December 31, 1969, made up in accordance with the uniform classification of accounts, is included in Exhibit B-1. Proof of the Treasurer's balance as of December 31, 1969, is indicated in Exhibit B-2.

District Court: (Exhibit E)

A statement of the accounts of the District Court for the fiscal year is included in Exhibit E.

Water Department — General Fund: (Exhibit F-1)

A statement of the receipts and expenditures of the Water Department during the year is included in Exhibit F-1.

Statement of Long Term Indebtedness: (Exhibit H)

A statement of the outstanding long term indebtedness as of December 31, 1969, showing annual debt service requirements, is contained in Exhibit H.

AUDIT PROCEDURE

The accounts and records of all town officials charged with the custody, receipt and disbursement of public funds were examined and audited in accordance with generally accepted auditing standards, and accordingly included such tests of the accounting records and such other auditing procedures as were considered necessary in the circumstances.

Verification of uncollected and unredeemed taxes was made by mailing notices to delinquent taxpayers as indicated by the Collector's records. The amounts of uncollected and unredeemed taxes as indicated in this report are therefore subject to any changes which may be necessitated by the return of verification notices.

GENERAL COMMENTS

Current Surplus:

The current surplus, (excess of total assets over current liabilities), decreased by \$14,107.27, from \$24,872.25 to \$10,764.98, in 1969, as shown herewith:

	December 31, 1968	December 31, 1969
<i>Total Assets</i>	\$1,345,661.66	\$1,627,984.35
<i>Current Liabilities</i>	1,320,789.41	1,617,219.37
<i>Current Surplus</i>	\$ 24,872.25	\$ 10,764.98

Overdraft of Appropriations and Application of Municipal Budget Law:

It is noted that there was a net overdraft of appropriations of \$39,099.27, — in other words, total expenditures exceeded total appropri-

ations by this amount as shown herewith:

Overdrafts of Appropriations	\$44,059.20
Unexpended Balances of Appropriations	4,959.93
	<hr/>
Net Overdraft of Appropriations	\$39,099.27

Included in the next overdraft was an overdraft of \$14,811.37 in the "overlay" assessment. Abatements, discounts and refunds are charged to this account. Because the amount of overlay is fixed by the Board of Selectmen, rather than appropriated by the Town Meeting, the next overdraft of appropriations should be reduced by the overdraft in the "overlay" assessment, leaving a net overdraft of budgetary appropriations of \$24,287.90, as shown herewith:

Net Overdraft of Appropriations	\$39,099.27
Less: Overdraft in "Overlay" Account	14,811.37
	<hr/>
Net Overdraft of Budgetary Appropriations	\$24,287.90

The provisions of the Municipal Budget Law (R.S.A. 32:10), require that the Board of Selectmen, with the approval of the Budget Committee, petition the State Tax Commission for a certificate of emergency which would authorize the expenditure made in excess of budgetary appropriations.

Our records indicate that in a letter dated September 30, 1969, authority was granted to exceed appropriations by an amount *not more* than \$8,000.00 because of emergency situations which had arisen in connection with the Town dump operation and due to damage caused by flooding conditions to town highways. This still leaves a balance of \$16,287.90 of which no further authority was granted by the Tax Commission to exceed appropriations.

The purpose of the Municipal Budget Law is to control the appropriation and expenditure of monies in municipalities. The intent of the law becomes ineffectual when its provisions are not adhered to. Attention is called to R.S.A. 32:11 relative to the penalty for violating the provisions of the Municipal Budget Law.

Police Station Addition:

At the March 1969 Town Meeting it was voted under Article 9F to build an addition to the present police station for the purpose of providing new cells and detention facilities, and for such purpose to appropriate a sum *not exceeding* \$22,500.00.

Our audit revealed that the Town contracted with Bonnette, Page and Stone Corporation in the amount of \$29,200.00 for this addition. As of December 31, 1969, there was a balance due the contractor of

\$6,073.50. As of the date of this audit, there have been donations totaling \$4,750.00 paid directly to the contractor, leaving a balance owed of \$1,323.50. We have been given to understand that the remaining balance will also be paid by donations. Therefore, we have not included this item on the balance sheet.

Approval of Installment Contracts:

Our examination of vendors invoices revealed that the Town paid \$1,550.00 in 1969 representing the second installment on a catch basin cleaner purchased in 1968 at a total cost of \$4,650.00.

Inasmuch as installment contracts for the purchase of equipment create long term indebtedness on the Town, approval by the voters at the annual Town Meeting is required before any such contracts may be executed by the Board of Selectmen.

District Court:

Our examination of the District Court's records revealed that not all the monies received and disbursed by the Court were properly recorded in the docket book, but rather were entered in a small cash book.

All District Courts are required to use the uniform docket and financial record for the recording of receipts and expenditures in all criminal cases.

Treasurer:

Again, attention is called to R.S.A. 41:29 which states that the Town Treasurer shall keep in suitable books provided for the purpose, a fair and correct account of all sums received and paid from the Town treasury.

Unredeemed Taxes:

As of December 31, 1969, there were unredeemed taxes from the tax sales on account of the tax levies of 1966 and prior years as follows:

Levies of:

1966	\$1,772.85
1965	1,648.06
1964	1,700.72
1963	428.46
1962	225.51
1961	228.52
1960	91.70

Inasmuch as the two-year period provided by law in which redemptions from tax sales may be made has expired on all of these unredeemed taxes, the tax collector should deed all of these properties represented by these unredeemed tax liens to the Town.

Conclusion:

The provisions of Chapter 184 of the Laws of 1955, require that this report or the summary of findings and recommendations, (letter of transmittal) , shall be published in the next annual report of the Town.

We extend our thanks to the officials of the Town of Newport for their assistance during the course of the audit.

Yours very truly,

O. MAURICE OLESON

Director

Certificate of Audit

This is to certify that we have examined and audited the accounts and records of the Town of Newport for the fiscal year ended December 31, 1969.

Our examination was made in accordance with generally accepted auditing standards and accordingly, included such tests of the accounting records and such other auditing procedures as were considered necessary in the circumstances.

In our opinion, the Exhibits included herewith present fairly the financial condition of the Town of Newport as of December 31, 1969, together with the results of operations for the fiscal year ended on that date.

Respectfully submitted,

O. MAURICE OLESON

REPORT OF SUPERINTENDENT OF SCHOOLS

To the Citizens of Newport:

SCHOOL FOUNDATION AID — 1971

Communities in New Hampshire differ greatly in their ability to support schools from local property taxes. Property valuations for taxing purposes are equalized by the Tax Commission to show one community's effort as compared to others. Towns and cities are expected to make a reasonable financial effort on their own — with the State making up the needed difference in order to insure a basic, minimum program of education, throughout New Hampshire.

The major form of School support is called "Foundation Aid." It is based on a formula to supply dollars to School Districts in relation to need to "equalize educational opportunities." In this way any child in New Hampshire is guaranteed a basic "minimum" education wherever he lives — Colebrook, Farmington, Exeter, or Newport. Many school people in New Hampshire, including the Commissioner of Education and I, contend there is nothing wrong with the present "foundation aid" formula if there were more dollars from the State to fund it.

Hopefully, you will be interested in the *needed* funds for full implementation and the *actual* amount provided over several school years. School Foundation Aid:

<i>School Year</i>	<i>Amount Needed for Full Implementation</i>	<i>Amount Actually Received</i>
1967-68	\$13,737,698	\$3,800,000
1968-69	14,330,359	4,275,000
1969-70	22,132,103	4,089,250
1970-71	27,281,476	5,409,448

Newport's share of the actual amount provided has been:

1967-68	\$133,534
1968-69	122,011
1969-70	99,811
1970-71	106,677

It is not difficult to realize the additional relief Newport and other towns and cities would receive by full implementation — based on "equalized" valuation and designed to "equalize educational opportunities."

In 1971 — is it proper to ask — Does the State really believe in equal educational opportunity?

Respectfully submitted,

GORDON B. FLINT

Superintendent of Schools

**ANNUAL REPORT OF PRINCIPAL
NEWPORT HIGH SCHOOL**

February 9, 1971

Mr. Gordon B. Flint
Superintendent of Schools
Newport, New Hampshire

Dear Mr. Flint:

Newport High School, Grades 7-12, began its 1970-71 sessions on September 8, 1970, with a teaching staff of 40, and a supporting staff of 19, including teacher aides, librarians, secretarial staff, nurse, custodial personnel, guidance and administrative staff. As of January 1, 1971, the student population totaled 755.

Pursuant to the authority contained in RSA 194:23-a, and under the provisions of the Minimum Standards established by the State Board of Education on June 18, 1962, Newport High School has been designated as a Comprehensive High School for the period of September 1, 1970 through June 30, 1971. This approval is granted for Grades 7-12. This approval status is reviewed each year. As long as we fulfill the minimum requirements, we will continue to receive approval.

There have been a few changes in the curriculum offerings for 1970-71:

(1) Perhaps the most notable change has been the introduction of Work-Study Program which was recommended last year.

(2) The Intermediate Science Curriculum Study Programs has been added for Grade 8. The course involves basic chemistry.

(3) A course in Drafting has been added to the vocational area.

(4) The Food Service course has been added again to the vocational area.

(5) Clothing Construction has been offered again in Home Economics.

(6) For the first time the Marching Band has used the combined Grades 7-12.

(7) A special Woodwind Ensemble has been organized.

Because of current trends in educational philosophy, we have tried to move away from the concept of making the student conform to the school towards the concept of making the school conform to the student and his needs. In this regard we have introduced a number of experimental programs:

(1) Released time for study: A number of students have been excused from regular study periods to work at the Head Start Program, at the Special Education Class, as student tutors, and as special aides within the school.

(2) Excused from study time: A number of students, with parental permission and responsibility, have been excused from afternoon study periods to work at home or at jobs.

In taking a look to the future, we find that there is much that has to be done to make our educational systems much more flexible, much more creative, and much more realistic. More often than not, the four walls of the classroom restrict learning, as well as movement. We must provide learning experiences of a more valid nature all along the educational front if we are to provide our youth with an endowment for their future. The immediate future is a critical time for youth, and we would be derelict in our duty if we fail to recognize the need for reasonable changes in some of our programs and procedures.

To accomplish some of these needs, both the staff and administration will work at revisions and reorganizations of the Junior High and Senior High curriculum designed to a flexibility to meet student needs. Among other considerations, we will take a careful look at the "campus type" high school programs being tried in some schools.

We look ahead to the future with an optimistic faith in the people of this community to provide their young people with an education comparable to the best.

Respectfully submitted,

HENRY F. BUINICKY

Principal

ANNUAL REPORT OF PRINCIPAL
RICHARDS SCHOOL — TOWLE SCHOOL

February 5, 1971

Mr. Gordon B. Flint
Superintendent of Schools
Newport, New Hampshire 03773

Dear Mr. Flint:

I am pleased to submit my thirteenth annual report as principal of Richards School, grades one through four and Towle School, grades four through six and the Special Class.

A brief summary of information that would be important for parents and citizens to know is listed below:

1. Homogeneous grouping (pupils working with others on a similar level of achievement) has continued in the 3rd, 4th, 5th, and 6th grades primarily in Reading and Mathematics. Home rooms are grouped heterogeneously (pupils working with others on a different level of achievement).

2. Educational television in Science (Grades 3, 5), Literature (Grades 1, 4, Special Class), and Social Studies (Grades 3, 6) has continued as an aid to teaching.

3. Federal funds from Title I and Title II were used in projects for the "educationally deprived" students.

4. For the thirteenth straight year, Towle Elementary School participated in the annual Union-Leader New Hampshire State Spelling Bee.

5. New books are continually being added to the Richards School Library and to the Richards Free Library which is being used by the Towle Elementary School pupils as their central library. Again, I want to take this opportunity to thank the parents and friends who are volunteering their time supervising both libraries.

6. The elementary school children continue to do an excellent job selling tickets for the annual Newport Teachers' Scholarship Fund.

7. Requests for referral to Child Guidance Clinics can be made at any time by parents and teachers. Some of the Agencies which have been helpful to us include:

- A. Sullivan County Mental Health Clinic, Claremont, N. H.
- B. Hitchcock Clinic, Hanover, N. H.
- C. N. H. Child Guidance Clinic, Concord, N. H.

8. Fire drills were held at least once a month and twice a month during warm weather, children on the second floor of the old Richards building have used the fire escape during fire drills.

9. The school staff continues to work to improve the school programs to insure avenues of achievement for all our students.

10. In order to retain our best teachers and attract other well-qualified teachers to Newport, we must continue to have a competitive teacher salary schedule.

I wish to thank all those connected with these schools and the citizens of Newport for their continued fine support and cooperation to make this past school year a successful one. I sincerely urge parents and citizens to visit their schools at any time throughout the year.

Respectfully submitted,

ALKIVEADIS JURIS

Principal

REPORT OF TEACHER CONSULTANT

TITLE I, ESEA. As the school year 1969-70 opened, approximately one hundred students from Newport, Croydon, Sunapee, and Goshen-Lempster were involved in a reading improvement program at the elementary levels. Newport had modified its program to include a model "transitional" class at the 2nd grade level, and employed a teacher (Mrs. Edith Fowle) who had received special training for this newer approach. Also employed and trained were two Teacher Aides: Mrs. Irene Pillsbury to work with Mrs. Fowle at the 2nd grade level, and Mrs. Maxine Wiggins, assigned to the existing transitional 1st grade program with Mrs. Maureen Genzlinger.

Trained and supervised in this "open-concept," individualized approach to teaching, this transitional program became the major emphasis in the Title I program at the Richards School. We were, however, able to employ a Teacher Aide, Mrs. Marlene Kennedy, to work with regular classroom teachers at the Towle Elementary School, grades 4-6 — a minimal program since the lower grade emphasis precluded the employment of any other reading personnel.

The experiences of children in these transitional classes were unique and exciting and quite successful as noted from evaluative data obtained from parents, teachers, students, and administration. Among some of the factors contributing to this success were (1) a teacher of long experience willing to try a new technique, (2) the assistance of Teacher Aides almost exclusively for these classes, (3) the awareness of differing rates of maturation and progress among children, (4) the acceptance of "freedom with boundaries" by children, (5) the highly individualized approach to the basic skills of reading and related activities, (6) the availability of appropriate equipment and materials supplied by Title I and (7) the supervision and guidance from personnel at the Regional Center for Educational Training at Dartmouth College where these teachers had been trained under EPDA (Educational Professions Development Act).

Although it was a loss to us in September, 1970 when Mrs. Fowle was unable to remain with us, we were fortunate that Mrs. Irene Johnson accepted the assignment to continue in the same general philosophy of individualized instruction. The position became one of district support, permitting the use of Title I funds for the employment of a special reading teacher, Mrs. Eileen Coombs — a teacher of considerable experience in reading instruction. Our emphasis then became daily remedial instruction at all elementary grades for the entire school year — a first for Newport in our efforts toward reading improvement under Title I.

To assist Mrs. Coombs in follow-up of remedial classes, Mrs. Irene Pillsbury and Mrs. Maxine Wiggins were again employed as Teacher Aides in all classrooms having Title I children. We hope that the program will receive continued approval for another year.

The REGIONAL CENTER FOR EDUCATIONAL TRAINING, located at Dartmouth College and under Title III, ESEA, has followed through on the social studies curriculum revision project by preparing the final course outline and rationale for elementary teachers. Also printed and distributed were a number of specific units of study for various grade levels; still others are now being prepared. These units are aimed "to help elementary students to know themselves as Americans through the study of themselves in contrast with young people of other cultures."

The Regional Center also provides other services including museum tours for classes, workshops for school professionals, MOVEkits (unique collections of artifacts and other materials for actual classroom use and display), and other related services.

The Elementary School Staff of Newport has (1) become increasingly aware of the philosophy of school readiness for entering first graders, (2) grown in respect for and dealing with children with learning disabilities, (3) become aware of the N. H. Minimum Standards for Elementary Schools and are now in the process of developing the school's written philosophy and objectives — one of many requirements in the Standards, and (4) shown cooperation by pulling together on matters aimed at improving education for all children. We are grateful to them and to parents, citizens, and administration for this support.

Respectfully submitted,

ALPHONSE J. SOUCY

Teacher Consultant

NEWPORT SCHOOL LUNCH PROGRAM

July 1, 1969 - June 30, 1970

STATISTICS

Paid meals served to children	173,310
Meals served free or at a reduced rate	15,404
Served to adults	4,458

FINANCIAL REPORT

Balance July 1, 1969	\$ 702.64
----------------------	-----------

Receipts

Lunch sales—children	\$58,047.21
Lunch sales—adults	2,228.95
Federal reimbursement	13,961.27
Misc. cash—sale of milk at 3 cents per half pint to students, revenue from suppers, donations to program, etc.	4,388.78

<i>Total Receipts</i>	<u>\$78,626.21</u>
-----------------------	--------------------

<i>Total Available</i>	<u>\$79,328.85</u>
------------------------	--------------------

Expenditures

Food	\$54,318.81
Labor	21,067.48
Equipment	5.00
All other expenditures	1,480.63

<i>Total Expenditures</i>	<u>76,871.92</u>
---------------------------	------------------

Cash balance July 1, 1970 as reconciled with the First National Bank at Newport	\$ 2,456.93
--	-------------

Wholesale value of USDA commodities received during year	\$ 8,680.07
--	-------------

I wish to express sincere thanks to the Newport Woman's Club and the Newport VFW for their donations to the school lunch fund. It is the policy of the Newport School District not to divulge the names of students on a free or reduced rate program. Therefore, it is not possible for a club or organization to sponsor any one particular child. However, these donations to the general fund are much appreciated as they help to defray the expense of this program. At the present time there are approximately 125 children being served a free or reduced rate lunch daily in the schools of Newport.

Respectfully submitted,

FLORA LACROIX

Director, Newport School Lunch

REPORT OF WORK-STUDY COORDINATOR

February 1, 1971

Mr. Gordon B. Flint
Superintendent of Schools
Newport, New Hampshire

Dear Mr. Flint:

I am submitting my first annual report as coordinator of the vocational work-study program at Newport High School. The vocational work-study program is a new program which began last fall. The objectives of the program are twofold.

There are currently one hundred and eight students enrolled in the comprehensive two-year vocational programs which include: automotive, secretarial, clerical, building engineering, and food service. Vocational counselling is available to these students, as well as all students, but particular concern is given to on-the-job training experience which is related to the in-school program of vocational students. By mid-year thirty-five students were participating in the cooperative program, with many more scheduled to receive work experience during the remainder of the school year. The overall purpose being to provide the student with practical experience and work habits he will need for future employment.

The second objective of the program is to provide a work experience for handicapped, disadvantaged and potential dropout students. This program is open to students in Grades nine through twelve, for students who may or may not be in a vocational program.

A vocational orientation class about the world of work is given to participating students. This includes frequent visits to various business enterprises in the community. Thus far, the results have been very encouraging with thirteen non-vocational students now enrolled and some thirty-six on the waiting list. Attitude, attendance and grades have shown a marked improvement over the previous year. Over an extended period this will reflect on the high school dropout rate.

Community support has been excellent, but it must continue, as the program, if it is to achieve its objectives, is highly dependent on the community.

Future plans are: 1) to expand and develop better availability of vocational materials to all students in aiding them in pursuing a career, and 2) to develop a summer employment program and job placement assistance to graduating seniors.

Respectfully submitted,
RICHARD M. KELLY
Vocational Work-Study
Coordinator

REPORTS OF GUIDANCE DIRECTOR

January 8, 1971

Mr. Gordon B. Flint
Superintendent of Schools
Newport, New Hampshire

Dear Mr. Flint:

The prospect that an elementary guidance program may be considered is most hopeful. It would fill a real need in the school system.

At the secondary level, we work with students who have firmly established patterns of behavior, and if these patterns are detrimental to their school success they are very hard to change. Often we are engulfed in situations that have passed any reasonable solution because attitudes have become solidified and environmental factors have become so inflexible. It is not fair to abandon these students, but our time must also allow for the vocational and academic information and placement services that we must supply.

In an elementary program we would be able to attack these problems at an earlier, more flexible age for both parent and student. Situations that are evident, but impossible to assess in a classroom situation, could receive consideration. Learning difficulties that defeat our teenagers would, more likely, be uncovered and corrected. Most of our students are well adjusted, interested individuals. They are a credit to the community. The students who become disruptive through repeated failure do not wish to be less creditable. They are troublesome to their teachers and to their classmates for reasons that might have been resolved at an earlier age.

At the secondary level we encourage the student to adapt to his situation. To make the best of it, and to realize the outcome of his actions. Often he can neither adjust nor change his situation. At the elementary level, before the development of a substantial reasoning process, the school, the parent, and the child may work more effectively to change difficult situations. In this, a guidance program could make a substantial contribution.

Sincerely,

HERBERT O. WILLIAMS

Director of Guidance

February 1, 1971

Mr. Gordon B. Flint
Superintendent of Schools
Newport, New Hampshire

Dear Mr. Flint:

I am pleased to submit the annual report of the guidance department at Newport High School.

The dramatic changes in secondary education in the last few years have necessitated many changes in responsibility and procedure for our guidance program. Without the fine cooperation of the administration and teachers, little could be accomplished. Their support, as school related problems increase in their social as well as education orientation, is essential and is appreciated. We also appreciate their help and confidence in situations that cannot be fully explained. The assistance of our school nurse and community services is also most valuable.

If the community decides to include an elementary guidance counselor in the school program, it will be very beneficial to our students. This additional person should be able to coordinate the skills and interests of school staff and supporting agencies to help with learning difficulties that should be discovered at an early age. Many of them can only be discovered with such a team effort. Many of these learning difficulties become such well established patterns of behavior that they are beyond solution in the high school years.

The work-study program is excellent in its value to our students. The members of our business community who have made this possible by their support, deserve the thanks of the community. In addition, it has helped our students to become more vocationally concerned. It has opened the door for the solution of some difficult problems for our students, and has encouraged many to stay in school.

We try to improve our guidance services each year. As the number of students increases, it becomes increasingly easy to overlook some of the problems we might help to solve. As I have requested before, in this report, we invite and welcome our parents to freely contact this office, so that we may be sure that we are as helpful as possible to their students. Their comments and questions are appreciated and considered to the best of our abilities.

Respectfully submitted,

HERBERT O. WILLIAMS

Director of Guidance

SCHOOL WARRANT
THE STATE OF NEW HAMPSHIRE

To the Inhabitants of the School District, in the Town of Newport, in the County of Sullivan, in the State of New Hampshire, qualified to vote in District affairs:

You are hereby notified to meet at the Town Hall in said District on the sixth day of March 1971 at 1 o'clock p.m. to act upon the Articles set forth in this Warrant. Articles 1, 2, 3, 4, and 5 of the Warrant covering the election of Moderator, Clerk, Treasurer, Members of the School Board, and Auditors, will be acted upon at 1 o'clock p.m. and voting will be by official ballot and check lists and the polls will remain open for this purpose from 1 o'clock p.m. until at least 3 o'clock p.m. At 2 o'clock p.m. the remaining Articles will be acted upon.

Article 1. To choose a Moderator for the ensuing year.

Article 2. To choose a Clerk for the ensuing year.

Article 3. To choose a Treasurer for the ensuing year.

Article 4. To choose two Members of the School Board for the ensuing three years and one Member of the School Board for the ensuing two years.

Article 5. To choose two Auditors for the ensuing year.

Article 6. To hear the reports of Agents, Auditors, Committees, or Officers chosen, and pass any vote relating thereto.

Article 7. To see what sum of money the District will raise and appropriate for the support of schools, for the salaries of School District Officials and Agents, and for the payment of statutory obligations of the District, and to authorize the application against said appropriation of such sums as are estimated to be received from the state equalization fund, and other state sources, together with other income; the School Board to certify to the Selectmen the balance between the revenue and appropriation, which balance is to be raised by taxes by the Town.

Article 8. To see if the District will begin to meet Minimum Standards for Elementary Schools by employing a Guidance Counselor and raise and appropriate the sum of \$8,175 for said purpose. (Not approved by the Budget Committee.)

Article 9. To see if the District will raise and appropriate the sum of \$8,000 to cover the cost of a Driver Education Program and authorize the application against said appropriation of funds to be received from state sources — estimated at \$3,000. (Submitted without recommendation by the Budget Committee.)

Article 10. To see if the District will vote to raise and appropriate the sum of \$8,000 to establish a Contingency Fund to meet the cost of unanticipated expenses that may arise during the year. (Not approved by the Budget Committee.)

Article 11. (Inserted by Petition.) To see if the District will vote to provide kindergarten classes and raise and appropriate \$33,315 for said purpose. (Not approved by the Budget Committee.)

Article 12. (Inserted by Petition.) To see if the District will vote to admit only registered voters to the meeting place while the School Meeting is in progress.

Article 13. To see if the District will vote to authorize the School Board to dispose of land and buildings known as the Primary School in the best interests of the District and Town.

Article 14. To see if the District will vote to authorize any unencumbered balance accruing June 30, 1971 to be placed in a Capital Reserve Fund to be used toward future school transportation needs to be expended as the School Board shall determine.

Article 15. To transact any other business that may legally come before said meeting.

Given under our hands this 16th day of February 1971.
